The right next step for your business

A NOTE ON PRICING

Packages are designed to fit business stages. Current availability, technical fit and final scope are confirmed by our team before purchase.

Technology that connects the important parts of your business.

Pillar Webhosting is a technology partner for organisations that need more than a supplier. We bring the essentials together: an online identity, fast hosting, a high-performing website, business software and the infrastructure that supports everyday work.

ONE TEAM. ONE CLEARER PATH FORWARD.

From a domain record to a customer-facing website, ERP workflow or workplace network, we build systems that work together.

01

Domains & security

Protect your identity with domain, SSL, DNS and renewal support.

02

Hosting & cloud

Give your website the speed, reliability and support it needs.

03

Digital growth

Turn ideas into modern websites, software and better customer experiences.

OUR PROMISE

Clear plans. Serious foundations. Practical support.

We recommend what fits now, explain what comes next and stay available as your business grows.

WHAT WE DO

Built around your next move.

Domains & SSL

Secure your name, configure DNS, protect visitors and keep renewals in view.

Web Hosting & VPS

Annual hosting, managed capacity, secure backups and scalable performance.

Website Design

Fast, responsive, SEO-ready websites, redesigns and e-commerce experiences.

Pillar ERP

Practical modules for inventory, sales, accounting, operations and growth.

ICT Infrastructure

Structured cabling, Wi-Fi, networking, CCTV and site survey support.

Email & Communication

Professional email, device setup, bulk SMS and customer communication tools.

One relationship. Multiple capabilities. A stronger business foundation.

WHY PILLAR

Dependable by design.

A complete view

We see how your domain, website, business process and infrastructure fit together.

Built for performance

Modern design, secure hosting and thoughtful technical decisions support confident growth.

Support that stays close

We remain available for renewal, optimisation, training, setup and new opportunities.

Local context, global standard

We serve Kenyan businesses with solutions that communicate confidently to customers everywhere.
